

TELEPHONE & VIDEO WALL JACKS

DECORA® TELEPHONE & VIDEO WALL JACKS

[A,B] Type 625 Decora Modular Wall Jacks: Single or duplex flush-mount voice-grade connectors feature screw terminals and come with a matching Decora wallplate.

[C] Decora TV/Phone Combination Jack: Combination jack with 4-Conductor modular jack for UTP telephone connections and F-Connector for video (coaxial cable) connections. Includes matching Decora wallplate.

[D,E] Decora Modular Wall Jack Inserts: Single flush mount jack for use with Decora or Decora Plus wallplates. Mount in standard or multi-gang electrical box. 6P4C version (Item D) features new lead frame design for improved reliability and simple installation. Screw terminals are available on 6P6C and 8P8C versions. UL Listed and CSA Certified.

MIDSIZE TELEPHONE & VIDEO WALL JACKS

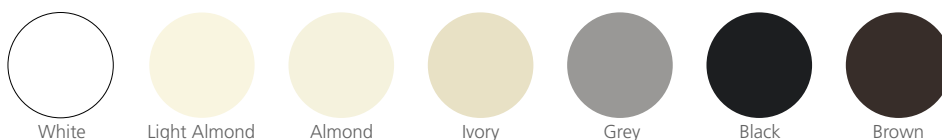

[F-H] Midsize Wall Jacks: The larger silhouette provides a designer look, and easily hides irregular drywall cuts. Choose a voice grade connector for UTP cable or an F-connector (filled or empty) for coaxial cable. Crafted from durable, UV-resistant nylon.

[I] Type 625B3 Midsize Duplex Wall Jack: These smooth finish midsize units include 2 jacks, wallplate, and mounting hardware. Wire to provide the same dial tone on both jacks or separate lines. Screw terminals. UL Listed and CSA Certified.

WALL PHONE JACKS

WALL PHONE JACKS

[A,B] Type 630A Quick-Connect Wall Phone Jack: Available with plastic or stainless steel wallplate. Features 4-or 6-conductor jack with quick-connect terminals, screw-on wallplate, metal bracket, mounting lugs, and installation tool. Removable lugs and color-matched plastic inserts permit conversion from wall phone jack to flush mount jack (Item A only). UL Listed and CSA Certified.

[C] Wall Phone Jack: Single phone jack for standard wall phone. Four color-coded screw-down connections.

[D] Type 630A Screw Terminal Wall Jack with Plastic Wallplate: Features 4-conductor jack, screw terminals, screw-on wallplate. Can be converted to a flush-mount jack by replacing removable mounting lugs with color-keyed plastic inserts (included). UL Listed and CSA Certified.

[E] Type 630A Screw Terminal Wall Jack with Snap-On Plastic Wallplate: Includes snap-on wallplate, mounting screws, and factory installed lugs. UL Listed and CSA Certified.
