

RAB

RBAY17

Does the work of high bays twice its size.

The field-adjustable RBAY17.

 EMERGENCY BATTERY BACKUP

 5-YEAR, LIMITED WARRANTY*

 100K HOURS

 480V OPTIONAL

 DLC PREMIUM LISTED

Small, lightweight, and environmentally conscious.

Designed to replace up to 1000W MH and be mounted as high as 60 feet, the RBAY17 family does more with less, hitting the lumen output of much larger high bay fixtures. The RBAY17's size reduction makes for a product that cuts down on materials, consumes less energy to manufacture, and demands less fuel to transport.

Field adjustable for maximized versatility.

RBAY17 is available in three sizes and each model comes with three selectable wattages and color temperatures, allowing you to customize settings onsite for super-flexible installations. All sizes are offered with an optional battery backup.

Available with smart controls.

The RBAY17 includes a sensor port that makes it easy to screw on standard or Lightcloud Blue-enabled PIR and microwave sensors, which can be configured to adjust brightness and hold time, saving additional energy and costs.

Plenty of accessories.

All RBAY17 models come standard with V-hooks for chain mounting but accessory kits are available for pendant and surface mounting. Wire guards are also offered for an added layer of protection.

Ordering Matrix

Product Family	Size/Wattage	Color Temp	Mounting	Finish	Voltage	Options
RBAY17						
S	14" (130/100/80W)	Blank	Field Adjustable (5000K/4000K/3500K)	Blank	White	Blank
