

ProLume®

Compact Fluorescent Plug-Ins

Plug Into Energy Savings & Low Maintenance With ProLume® Plug-In Lamps.

When your objective is to offer energy-savings and low-maintenance solutions, our objective is to arm you with a vast selection of compact fluorescent lamps.

Halco Lighting Technologies offers you a complete line of ProLume® plug-in lamps to meet a variety of applications with long-life, quality and performance. In fact, our plug-in lamps save up-to 80% in energy costs and last up-to ten times longer than standard incandescent lamps.

ProLume has become a popular brand for many distributors and end users because of assortment, availability and reliability. Offer your customers an assortment of plug-in lamp types, including single and double tube 2-pin; single, double, triple, spiral and flat quad 4-pin and our high lumen, flicker-free PLL lamps.

Long Life Means Low Maintenance, Not Less Performance

ProLume® plug-in lamps provide between 12,000 and 20,000 hours average rated life, with the majority of our 4-pin double and triple lamps lasting 15,000 hours. These lamps are available in 5 to 57 watts and achieve up-to 85 lumens per watt. Making the switch from incandescent to ProLume plug-in lamps saves labor and energy while maintaining light levels.

ECO-SHIELD® Products Provide Green Solutions

The Eco-Shield mark on ProLume compact fluorescent lamps indicates TCLP Compliance. All standard single, double and triple tube lamps carry the Eco-Shield mark, making ProLume plug-in lamps a smart choice for environmental responsibility.

The Right Choice For Assortment

We offer a wide assortment of ProLume plug-in lamps for a variety of ballasted applications to round out our complete selection of compact fluorescent, energy-saving solutions. Lamp types include single and double tube 2-pin; single, double, triple and spiral tube 4-pin; flat quad 4-pin; and high lumen 4-pin PLL. Halco offers these lamps in assorted color temperatures, including 2700, 3000, 3500, 4100 and 5000K.

Get Peace-of-Mind Operation Through End-of-Life Protection

ProLume single, double and triple tube 4-Pin CFL lamps feature internal end-of-life shut down protection. These lamps provide protection for electronic (including dimming) ballasts with no end-of-life protection, but also can be used safely with ballasts having end-of-life protection.
