

Work Gloves made with 3M™ Gripping Material

Get a better

grip

on the job.

The work glove,
reinvented.

Whether you're handling a jackhammer on a road crew, hand-tightening an oil filter in your garage, raking leaves in your backyard or shifting levers in a plant, Work Gloves made with 3M™ Gripping Material bring science and better grip performance to any job. Comprised of thousands of micro fingers, 3M gripping material enhances your traction and hold on any tool or piece of equipment—even in wet or oily conditions.

Wear a pair and get a grip, with less effort.

3M

3M™ Gripping Material

Grip it while you work.

Grip lighter, hold tighter, even in wet or oily conditions.

Work Gloves made with 3M™ Gripping Material give you maximum hold with minimum effort—and that means reduced slippage, fewer dropped tools, improved productivity and less fatigue.

Unlike typical leather or cotton gloves, work gloves with 3M gripping material maintain their gripping power even in the rain or when saturated with oil or sweat.

Think outside the glove.

3M gripping material is also available as a tape, which can easily be wrapped on handles and levers. When used as a two-part system—i.e. on gloves *and* on tools or equipment—3M gripping material can provide up to a 270% improvement in friction over traditional leather gloves and wraps.*

The gripping proof.

A study* at the University of Wisconsin found that using 3M gripping material under dry conditions reduced required grip force by an average of 24%. Using 3M gripping material for twisting tasks on oil-saturated surfaces reduced the average grip force needed by 56%.

* Study details available upon request.

Other performance benefits with 3M™ Gripping Material:

- Immediate release when the hand lets go
- Abrasion and puncture resistant for tough use in factories, fields, construction sites or workshops
- Performance across a broad temperature range, both indoors and out

PRODUCT USE: All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. However, many factors beyond 3M's control can affect the use and performance of a 3M product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

WARRANTY AND LIMITED REMEDY: Unless stated otherwise in 3M's product literature, packaging inserts or product packaging for individual products, 3M warrants that each 3M product meets the applicable specifications at the time 3M ships the product. Individual products may have additional or different warranties as stated on product literature, package inserts or product packages. 3M MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's application. If the 3M product is defective within the warranty period, your exclusive remedy and 3M's and seller's sole obligation will be, at 3M's option, to replace the product or refund the purchase price.

LIMITATION OF LIABILITY: Except where prohibited by law, 3M and seller will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
