

## LED Wafer Series

### Canless Downlighting for Residential Ceiling Applications

LED Recessed Downlighting with Remote Driver Box for Quick, Simple, and Housing-Free Installations.

The adaptable Juno LED Wafer Series, available in 4", 6", and 8" sizes provide high-quality light output and efficiency while eliminating the need for recessed housings. With options for any application, the Juno Series of LED Wafers can be used in retrofits, remodels, or even new construction! With their shallow design, the JUNO LED Wafer Series can be installed in applications with as little as 2" of plenum space. A wet-location listing allows the Juno LED Wafer Series to be used in a variety of both indoor and outdoor applications.

#### Features include:

- Quality, housing-free downlighting ideal for shallow ceilings
- IC rated – safe to install in direct contact with insulation
- Edge-lit LED technology provides even illumination
- All configurations come with selectable white, 27K/30K/35K/40K/50K
- Remote mounted 120V driver
- Dimmable to 10%
- Suitable for wet locations

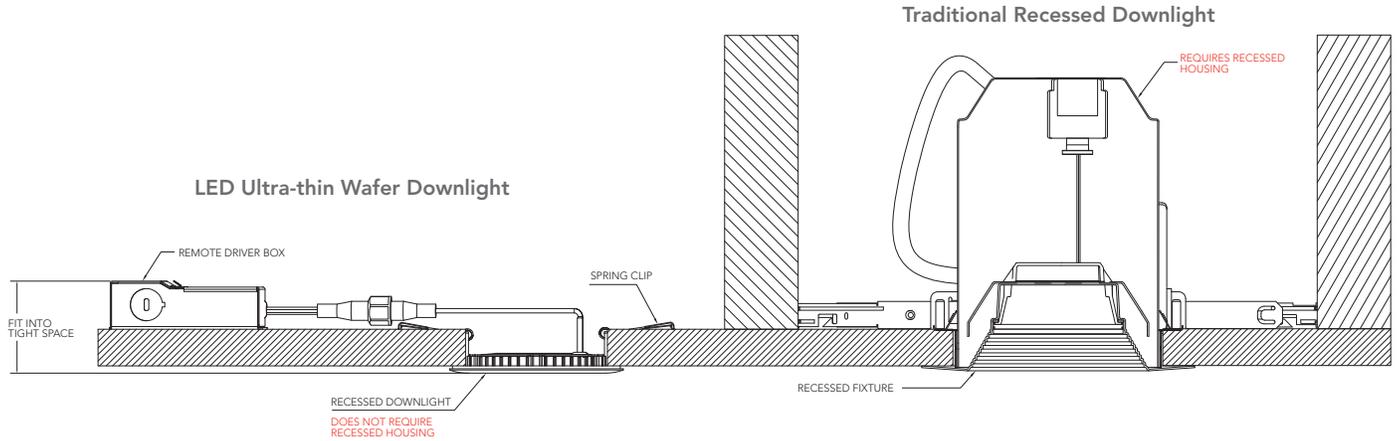

**JUNO**®

# Wafer™ LED Recessed Downlight

The adaptable Juno LED Wafer series and remote drive box can be installed in confined, hard to reach spaces such as closets, bathrooms, hallways, stairwells and outside soffits. These and other areas with shallow plenum often make it impossible to install traditional recessed housings.

Make installation quick and simple with the LED Wafer series.
